English (Fluent)

PROFILE

Software developer with experience in developing internal web applications at Câmara Municipal de Abrantes. I work with technologies such as Java EE (Payara), Vue 3/Nuxt, Node.js/Fastify, PostgreSQL, MongoDB and SQL Server. Passionate about building practical solutions, from API integrations to modern interfaces. Currently exploring the path to a degree in Computer Engineering at IPT.

WORK EXPERIENCE

SkillTech - DSI — Abrantes City Council 2025 - Present
Software Developer

Development and maintenance of internal web applications (Java EE, Vue 3, Node.js)
Integration with external APIs (OpenData Reporting API)
PostgreSQL, MongoDB and SQL Server database management
Deployment and administration of apps on Linux servers with PM2
Development of VisitAbrantes - official tourism website of Abrantes

EDUCATION

CTeSP em Informática (completed) 2023 - 2025
Escola Superior de Tecnologia de Abrantes

Degree in Computer Engineering (intended) 2026 - 2028
Instituto Politécnico de Tomar

PERSONAL PROJECTS

Movemaster

desktop chess assistant (Tauri + React + TypeScript + Stockfish/UCI)

Terminator

solver for the Termo game based on entropy, with a Portuguese word list (Vue 3 + TypeScript, published on GitHub Pages)
